MESSAGE

I am glad to know that Odisha Police is observing its 83rd Foundation Day on 1st April 2018.

Odisha Police with such a long history definitely finds itself among the oldest state police in the country. For these long years it has rendered commendable service to the people of the state. It is heartening that Odisha Police is decorated with many honours and awards for distinguished and meritorious service by police personnel.

I congratulate Odisha Police and the members of the Police Force for the selfless and untiring work that they have been performing. I pay my homage to all those police personnel who have sacrificed life while serving the interests of our state and nation.

The challenge never ends. In the dynamic environment of today, in which the pace, scale and complexity of security challenges are unprecedented let the focus and endeavour be to create an image of the Odisha Police as a professionally competent and technologically advanced force in the country and one that is endowed with a spirit of humanism. Police training has to keep pace with requirements.

I send my best wishes to the members of Odisha Police and their families and wish Odisha Police to rise new heights. **Jai Hind.**
