

POLICE CIRCULAR ORDER No. 117

It is noticed with grave concern that the Thana Officers are seriously lacking in their sense of responsibility in not submitting the weekly epidemic cards to the Director of Health Services, Orissa in time in spite of repeated instructions issued from him as well as from this office. The situation is not likely to improve unless the delinquents are severely dealt with.

Irregular and wrong submission of weekly epidemic cards by the Thana Officers.

The necessity of prompt and regular submission of reports about the outbreak of epidemic cannot be over emphasised. It is imperative that the local Police should be alive to their responsibility in this regard and give high priority to the submission of such returns in time to avoid any complaint in future.

Thana Officers should take warning that infringement of these instructions in future will result in proceedings being drawn up against them.
