Request for Expression of Interest (REOI) for Design, Built, Supply & Commission of Patrol and Amphibious Boats for Odisha Police (Coastal Security).

1. Introduction

The Odisha Police Coastal Security Department is a specialized wing of the Odisha Police tasked with safeguarding the state's 480-kilometer coastline along the Bay of Bengal, covering the districts of Balasore, Bhadrak, Kendrapara, Jagatsinghpur, Puri, and Ganjam. Its primary responsibilities include ensuring maritime security by preventing infiltration, protecting coastal installations, and combating crimes such as smuggling, illegal fishing, and human trafficking. The department also plays a vital role in disaster management by assisting during cyclones, floods, and tsunamis and supporting relief operations for affected communities. To achieve these objectives, it operates 18 Marine Police Stations (MPS) strategically located along the coast and deploys a fleet of high-speed patrol boats equipped with advanced GPS, radars, and communication systems. Working in close collaboration with the Indian Coast Guard and Navy, the department strengthens intelligence sharing and surveillance to ensure the safety and security of Odisha's coastal region.

1.1. Project Background

Boats are instrumental for the Odisha Police in enhancing coastal security and patrolling along the state's 487-km coastline. They enable surveillance and monitoring of offshore areas up to 12 nautical miles, helping detect and deter illegal activities like smuggling, unauthorized fishing, and infiltration. These vessels facilitate quick response to security breaches and emergencies in coastal waters, accessing remote beach areas and creeks that are challenging for land-based patrols. Equipped with navigation and communication technology, boats strengthen the police's presence and coordination with agencies like the Coast Guard. Modernizing the boat fleet is a key aspect of bolstering Odisha's coastal security capabilities, complementing other measures like All-Terrain Vehicles for comprehensive coverage.

The Office of the Additional Directorate General of Police (Coastal Security) is looking to award a contract to a Public Sector Undertaking (PSU) or Government Undertaking for designing, constructing, and supplying boats for coastal security purposes. The Office of the Additional Directorate General of Police (Coastal Security) has issued this Expression of Interest and seeking proposals from qualified Public Sector Undertaking (PSU) for the design, construction, and supply of specific patrol and amphibious boats.

The requirement includes

A. 02 Nos. 17m Patrol Boats

B. 03 Nos. 11.8m Patrol Boats,

C. 05 Nos. 9m Amphibious Boats

1.2. Instructions to Bidders

Bidders are advised to study this EOI (Expression of Interest) tender document carefully before participating. It shall be deemed that submission of a proposal by the bidder has been done after careful study and examination of the EOI (Expression of Interest) tender document with full understanding of its implications. Bidders are also expected to visit the Office of the Additional Directorate General of Police (Coastal Security) and understand the requirements to allow them to propose the best solution. Proposal is to be submitted as per enclosed format and instructions only. Attach the certificates, brochures & documents asked for in the EOI (Expression of Interest)

6. Scope of Work

The scope of work for the selected Public Sector Undertaking (PSU)/Government Organization encompasses key aspects critical for strengthening the coastal security capabilities of Odisha Police. Design is the foundational phase where the PSU is expected to develop designs that meticulously meet the technical specifications outlined for the boats, align with coastal security requirements of Odisha Police, and secure necessary regulatory approvals. This ensures the boats are fit for purpose in enhancing surveillance and response along Odisha's coastline.

The vessels are strategically intended for bolstering Odisha Police's (Coastal Security) capabilities across a spectrum of critical maritime operations. They are required for conducting day/night coastal and riverine patrols up to 30 nautical miles offshore, enabling robust surveillance and presence in Odisha's coastal and adjoining waters.

These boats are envisaged for high-speed interception, empowering law enforcement agencies to respond swiftly to threats. Their deployment will support law enforcement, anti-smuggling, anti-terrorist, and anti-piracy operations, addressing diverse security challenges in maritime domains.

Additionally, the vessels will serve multifaceted roles in search and rescue missions, proving vital in emergency response scenarios. They'll contribute to disaster relief efforts, extending support during calamities affecting coastal areas. Furthermore, they'll aid in fisheries protection, helping safeguard interests of fishing communities and regulate activities in coastal waters.

Following approval of designs, the Build phase entails constructing the boats with strict adherence to the approved designs, prevailing quality standards, and stipulated timelines. This construction phase is pivotal as it translates the design into tangible assets that meet performance and safety expectations for coastal patrolling and security operations. The emphasis on quality standards underscores the importance of reliability and durability of these boats in often challenging marine environments.

Upon successful construction, the Supply phase involves delivering the boats to designated locations as explicitly stated in the contract. Logistical aspects and coordination for delivery form part of this critical step ensuring the boats reach intended destinations efficiently.

The final phase, Commissioning, focuses on ensuring each boat is commissioned and formally handed over to Odisha Police (Coastal Security) in fully operational condition. This step confirms readiness of the boats for deployment in coastal security roles, integrating them into the policing framework for patrolling and response duties.
