

POLICE CIRCULAR ORDER No. 106

Judicious
programme for
expenditure of
the allotment
under "C. C."

It has come to my notice that some of the districts/units do not seem to be spending their C. C. allotments judiciously with the result that they are coming up for extra allotment from time to time either to purchase law books or to purchase furnitures. To aboviate such difficulties it is desirable that the districts/ units should formuate a purchase programme under different heads which should be spread over a number of years so that the expenditure can be met out of the normal grant without any difficulty.

In each district a portion of C. C. should be earmarked from the very beginning for (1) purchase of books and (2) for purchase of furniture.

(Previous Police Circular Order 1 of 1956)
