

POLICE CIRCULAR ORDER No. 27

The serious attention of all officers is directed to the large number of grave irregularities that have been detected in the Clothing and Departmental Stores Accounts in some districts within the last five months, and which are now the subject-matter of departmental enquiries which must result in the most serious consequences for these responsible. This state of affairs has been largely brought about by neglect or violation of Police Manual Rules, 1065 to 1086 which enforce the measures to be taken for the supply, maintenance, check and safe custody of Government clothing and stores.
