

POLICE CIRCULAR ORDER No. 81

It has been observed for some time past that the Annual Range Courses in .303 Rifle and .410 Musket are not being strictly followed by the districts/establishments. In fact, from the score sheets received from different districts establishments for 1952-53 it is not noticed that the results of firing are generally poor specially in .303 Rifle Course. This clearly indicates that sufficient training is not given to the officers/men before they are taken to the range. The situation is unsatisfactory and calls for immediate improvement.

Annual
Range
Courses in
.303 Rifle
and .410
Musket.

The importance of the annual musketry course needs hardly any emphasis. It is, therefore, hoped that S.Ps. and other heads of establishments will take greater interest in musketry in future and aim at a higher level of efficiency and better results in the All-India Police Shooting Competitions.
