

**POLICE CIRCULAR ORDER No. 90**

It has been noticed that in some cases of rape the Investigating Officers have failed to send requisition for the Medical Examination of the accused persons for the purpose of ascertaining if they have any venereal disease and this failure has adversely affected the merit of the prosecution. All officers are directed to see that such examination is held in future and result thereof adduced in evidence, if necessary.

(Previous Police Circular Order No. 9 of 1954)

Requisition  
for the  
medical  
examination  
in cases of  
rape.
