

POLICE CIRCULAR ORDER No. 181

Instances have come to notice that Duplicate Registration Certificates are being issued by the Registering Authorities showing less Registered Laden Weight instead of the actual R.L.W. noted in the Registration Books. This is being done obviously by the dealing assistant of M.V. Section either to enable the owner to get a permanent permit for all motorable roads of Orissa obviating the limitation of 25,000 lbs. imposed for issue of permit as per the resolution of S. T. A. Meeting held 14-3-1964 or to pay less tax involving pecuniary loss to the State Exchequer. It is also seen that the Registering Authorities do not take any pain to scrutinize the records and blindly put their initials on incorrect records prepared by their dealing assistants. This indicates utter carelessness and lack of responsibility on the part of the Registering Authorities which gives rise to various complications confusions and suspicions.

Issue of
Duplicate
Registration
Certificate

It is, therefore, emphasized that while signing/issuing documents, or copies thereof the Registering Authorities should meticulously examine the entries personally to satisfy themselves about the genuineness of the entries before they put their signature on them. Any deviation/irregularities come to notice will be seriously viewed.
