

POLICE CIRCULAR ORDER No. 82

It is observed that the district/establishments while comming up with their proposals for the 'Write off' of the ordnance stores lost, damaged or declared unserviceable, submit sketchy and incomplete reports without furnishing full particulars as to the date of purchase of the store, the circumstances leading to such loss, damage or unserviceability, etc., and fixing responsibility. This result in unnecessary correspondence and delay.

Committee reports on lost, damaged or unserviceable ordnance stores.

It is, therefore, impressed on all officers that in future the proceeding of the committees held on any loss, damage or unserviceable ordnance stores should contain a fully history of the case touching on all the points raised above.

These instructions should be strictly followed in future.
